Professional Summary

A results-driven Front End Developer with over 5 years of experience, recognized as "**Employee of the Year**" for exceptional contributions to code quality and team success. I specialize in translating complex Figma designs into high-performance, pixel-perfect web applications using **Next.js, TypeScript, and Tailwind CSS**. My expertise lies in architecting scalable component libraries and optimizing Core Web Vitals to enhance user experience and SEO performance.

Work Experience

Front End Developer | Ideh Gostaran Samin Pars (ICC) | Shiraz, Iran *August 2020 - August 2023*

- Architected a reusable component library and comprehensive style guide in **React**, which accelerated development cycles by **20%** and ensured consistent branding across all products.
- Elevated Lighthouse performance scores by 30 points and improved SEO rankings by implementing strategic code splitting, image optimization, and semantic HTML, directly boosting **Core Web Vitals**.
- Collaborated effectively in an Agile environment to integrate complex RESTful APIs, authoring clean, maintainable **TypeScript** code that reduced bugs in production by 15%.
- Engineered and managed a global state structure using **Redux Toolkit**, slashing boilerplate code by **40%** and significantly improving application predictability and state management.
- Designed and implemented engaging UI features, including a 3D slideshow, leading to a **10% increase** in average user session duration and higher site traffic.

Technical Skills

- **Frontend:** Next.js, React.js, TypeScript, JavaScript, Redux, Vue.js, HTML5, CSS3, Tailwind CSS, shadcn/ui, Bootstrap, Material Design, i18next
- **Backend:** Node.js, Express, Mongoose, MongoDB
- **Tools & Platforms:** Git, GitHub, Vercel, Vite, Webpack, Trello, npm
- **Core Competencies:** Performance Optimization (Core Web Vitals), SEO Best Practices, Responsive Design, Clean Code Architecture, MERN Stack

Projects

New Portfolio (Next.js Version) The latest version of my personal portfolio, rebuilt from the ground up with **Next.js, TypeScript, and Tailwind CSS** for superior performance, SEO, and a modern user experience. It leverages Server-Side Rendering (SSR) and features a clean, responsive design.

Live Demo: <https://portfolio-next-nu-liart.vercel.app> | *GitHub Repo:* <https://github.com/Abolfazl26s/portfolio-next>

Dynamic Media Player A modern, component-based media player built with **React** and **TypeScript**, featuring custom controls, playlist management, and seamless audio/video playback. This project showcases advanced state management for real-time updates and integration with media APIs.

Live Demo: <https://media-player-app-eta.vercel.app> | *GitHub Repo:* <https://github.com/Abolfazl26s/media-player-app>

Netflix Clone A feature-rich clone developed with **Next.js, TypeScript, and Tailwind CSS** to master server-side rendering, API integration, and global state management in a large-scale application.

Live Demo: <https://netflix-clone-czse.vercel.app> | *GitHub Repo:* <https://github.com/Abolfazl26s/netflix-clone>

Original Portfolio (React Version) A fully responsive, bilingual portfolio built with **React** and **i18next** to showcase my professional work and demonstrate skills in internationalization (i18n).
